I. QUESTIONS AND ANSWERS

Q1. Regarding road occupancy permit, would you confirm if the cost shall be carried as incidental to all related items work.

A1. There is no City permit fee associated with obtaining road occupancy permits under the Contract; however, all effort and associated cost incurred by the Supplier to obtain the road occupancy permit (RoDARS process) for each mobilization is incidental to all related items of work.

Q2. Pricing Form - Items 5.2.2.1.1 and 5.2.2.1.4 have quantities of 2,700m and 6,170m, respectively. However, summing up items B.01.1 and B.01.4 in Part 3 - Appendix 1-1 List of Repairs results in total lengths of 2,669.5m and 6,151.2m, respectively—31m and 19m less than in the Pricing Form. Every other item differs by only 2-8m. Is there a reason for this discrepancy? If not, can the quantities in the Pricing Form be adjusted to match the typical difference?

A2. Upon review, quantities for these items will remain unchanged due to potential variance in the pipe's GIS length compared to the actual installation length.
