

Request for Tenders**Part 4 – Form E****RFT No. Doc4897137822, Contract No. 25TW-CPI-02CWD**

Part 4 – Form E – CIPP, CIPPSR Material Properties Form

The following information is mandatory shall be submitted with the Bid. Failure to submit the information requested may result in the bid deemed non-compliant.

1. CIPP Lining System Material Properties Form

- a. Each Supplier shall complete and upload Table 4E-1 (below) and include any additional supporting documentation as outlined below.
- b. The Supplier shall identify each lining system to be used on the project.
- c. For the proposed CIPP system, the Supplier must include five (5) lab testing reports (in English) for CIPP field installation samples that were produced by the Supplier on a minimum of three (3) different previous projects where the same materials were used to demonstrate the identified design material properties.

Table 4E-1: Lining System and Materials Properties

Component	Lining System 1 (Styrene)	Lining System 2 (Styrene Free)	Lining System 3 (UV – Optional)
Lining System Type: (CIPP/GRP)			
Liner Tube (Bag): Manufacturer			
Resin: Type			
Resin: Manufacturer			
Resin: Manufacturer's Number			
Design Flexural Strength (MPa) Short Term			
Design Flexural Modulus (MPa) Short term			
Design Flexural Strength (MPa) Long Term			
Design Flexural Modulus (MPa) Long term			

Supplier Name:

2. CIPPSR Material Properties Form

- a. Each Supplier shall complete and upload Table 4E-2 (below) in Part 4.5 – Form E and include any additional supporting documentation as outlined below.
- b. The Supplier shall identify each CIPPSR system to be used on the project.
- c. For each CIPPSR systems, the Supplier must include five (5) lab testing reports (in English) for CIPPSR field installation samples that were produced by the Supplier on a minimum of three (3) different previous projects where the same materials were used to demonstrate the identified design material properties.

Table 4E-2: CIPPSR System and Material Properties

Component	CIPPSR System 1	CIPPSR System 2
CIPPSR Tube (Bag): Manufacturer		
Resin: Type		
Resin: Manufacturer		
Resin: Manufacturer's Number		
Design Flexural Strength (MPa) Short Term		
Design Flexural Modulus (MPa) Short Term		
Design Flexural Strength (MPa) Long term		
Design Flexural Modulus (MPa) Long term
